

```
1 const num = 40;
2 let final;
3 // ADD CODE HERE
4 for (let i = 0; i < num.length; i +=1) {
5   if (num[i] >= 5) {
6     newNum = num[i] * 2;
7     // console.log(newNum);
8     num[i] = newNum;
9   }
10 }
11
12 // Log final to the console below to check your work
13 console.log(newNum)
```
